## Regarding all Medicaid Patients:

Effective immediately, all Medicaid patients are required by the Federal Trade Commission to produce a valid picture id upon the initial consultation. It is also required that the patient receiving services has a Health and Physical Exam from their medical doctor **before** their initial consultation with any mental health clinic.

If said Medicaid patients have already begun receiving services, it is the patient's responsibility to renew their physical exam once every 12 months. This needs to be done so that Medicaid may continue covering all services rendered.

Thank you for your cooperation regarding this matter.
